Bitumen

At Kimiyajohar, we produce high-quality bitumen tailored to the demands of modern infrastructure. Our bitumen products stand out for their exceptional durability, adaptability to various climates, and sustainability. Utilizing advanced production techniques and rigorous quality control, our bitumen ensures long-lasting performance with minimal maintenance. Committed to sustainable practices, we incorporate recycled materials, reducing environmental impact while delivering economically viable solutions for roads, bridges, and diverse applications.

More Info

Chemical Products

Kimiya Johar started its activity in 2017, managed by a unit to provide solutions for the supply of chemical materials, production and supply of chemical raw materials to meet the needs of the country's production units, as well as import, export, and extensive sales of chemical materials. Since its inception, the company has been able to attract customer satisfaction by providing high-quality raw materials and timely sales and supply services, providing the credit that is the main capital of the company. We are pleased that, through continuous activity, we have been able to contribute to the supply of chemical raw materials and assist in the production cycle in the country's factories in the industrial sector.
